

## Learn more: Domestic Drainage

Apex Utility Services provides professional, friendly domestic drainage services across Kent, helping homeowners keep things running smoothly. Whether it's a sudden blockage, an ongoing issue, or you need support with a septic tank system, we'll assess the problem properly and get it sorted with minimal fuss and disruption.

### **What can we help with?**

Drain unblocking – clearing blocked sinks, toilets, showers and outside drains.

High-pressure water jetting – removing built-up waste, grease and debris to restore proper flow.

CCTV drain surveys – checking pipework to find the cause of repeat blockages or hidden damage.

Drain repairs – fixing damaged or collapsed sections and resolving persistent drainage problems.

Routine maintenance – helping prevent future blockages, especially where issues keep returning.

New drainage installations – drainage for home improvements, extensions and new-build homes.

Septic tank services – support with septic tank installations, inspections and repairs, plus practical advice if you're experiencing odours, slow drainage, or recurring blockages.

### **Why choose Apex Utility Services**

Local to Kent – reliable support from a team that knows the area.

Professional and approachable – clear advice, tidy workmanship and respect for your home.

The right fix, not a quick patch – we focus on solving the root cause, not just the symptoms.

Minimal disruption – we work efficiently and keep mess to a minimum.

Straightforward communication – clear explanations and practical next steps, without jargon.
